EDUCATION

Tulane University | School of Science and Engineering | ABET Accredited
Bachelor of Science in Engineering Physics
Major: Engineering Physics

New Orleans, LA
Expected May 2028

Brophy College Preparatory
GPA: 4.031/4.0

Phoenix, AZ
May 2020 – May 2024

EXPERIENCE

Freeport-McMoRan

Phoenix, AZ

Project Engineering Intern

July 2025 – August 2025

- Researched heat pumps as part of an innovative and industry-leading initiative to produce copper from stockpiles previously thought to be unrecoverable
- Assisted global Project Management Department with creating and improving schedules for multiple concurrent projects, consolidating information from various departments to formulate an accurate schedule
- Combined, organized, and automated the process of searching for information in mine site equipment lists

Tulane University - MakerSpace

New Orleans, LA

Fabrication Technician

May 2025 – Present

- Assist MakerSpace users with bringing their projects to life, whether it be ideation, design, or manufacturing
- Train MakerSpace users to use various machines, including woodworking & metalworking machines, CNC machinery, 3D Printers and Laser Cutters, and various hand tools
- Model safe usage and ensure the space stays clean and all machines remain operational

Brophy College Preparatory

Phoenix, AZ

Engineering/Robotics Teaching Assistant

May 2023 - June 2023 & May 2024 – June 2024

- Instructed 60 high school freshman in coding, electronics, and computer-aided design (CAD) concepts
- Assisted in delivering hands-on lessons to enhance students' understanding of core engineering principles
- Guided students through problem-solving and practical applications of MakerSpace machines
- Designed and implemented a teaching curriculum for VEXiQ robotics, teaching foundational engineering concepts
- Helped to expand the program to 2.5 times its size the following summer

EXTRACURRICULARS

President, Brophy Robotics

June 2021 - Present

- Advised, managed, and competed on nine VEX, FTC, and FRC teams; organized qualifying and state-level tournaments; contributed to the design and manufacturing of FRC robots; competed as robot driver for FTC and FRC
- Served as VEX Team lead (June 2022 – May 2023) and Alumni Mentor (May 2024 – Present)

Treasurer, Founding Member, Tulane GreenWave Stargazers

February 2025 - Present

- Manage the finances for the Astronomy club and keep track of purchases to make sure the club stays under budget

Treasurer, Tulane Makers and Robotics Society

August 2025 - Present

- Manage the finances for the Makers and Robotics Society and keep track of purchases to make sure the club stays under budget
- Help coordinate and run multiple events each semester to engage Tulane students in engineering and craft activities

Member, Theta Tau Nu Epsilon Chapter

September 2024 - Present

- Engage with other engineering students in brotherhood, service, and professional development

SKILLS & AWARDS

Computer: Fusion360 CAD & CAM, OnShape, Microsoft Office, Fritzing

Manufacturing: Proficient with 3D Printers, Laser Cutters, Metal/Woodworking Machinery, CNC Mill, CNC Lathe, WaterJet

Awards: Leadership Excellence Award (Brophy Robotics), Dean's List Nominee (FIRST Robotics Competition), Distinguished Student Award (Brophy College Preparatory), Judges' Award & 2nd Place Overall Weight Held (Tulane Truss Bust Competition)
